CLOSED

The T. H. Ferguson Grocery Store has closed its doors and gone out of business.

SUCCESSFUL U. F. A. CONVENTION LAST FRIDAY

Good Attendance Of Delegates

A very successful gathering was held here, last Friday, the occasion being the Annual Convention of the various U. F. A. Locals in the Coronation Constituency.

The sessions were held in the Big Hall and over 250 persons were in attendance at the afternoon meeting, with a slight falling off in number at the evening session.

Owing to sickness, H. Wilson President, was unable to attend and Thos. Partridge was elected to fill the Chair, and after a few remarks he called upon L. E. Larder, Pres. of the Board of Trade, to address the delegates. In a few well chosen words Mr. Larder welcomed them to this fair town and extended a invitation to return again.

Messrs C. Fawcett, Glacier, Norton, Sternman, and Mrs. Downer, were elected as the Resolution Committee, and the Order of Business Com. was composed of Messrs Petersen, Fisher and Edwards.

Jas H. Norton was appointed as Auditor. A resolution was carried so that the delegates from Locals not in good standing could vote at the Convention.

While the above committees were at work, G. N. Johnston M. L. A., addressed the meeting and outlined several planks in the Farmers' Platform. He stressed the necessity for constructive work and recommended community organization to bring the needs of each district before the various Commissions.

Jas McKay spoke at some length on outlining a scheme for a Farmers' Chautauque.

A great number of resolutions were introduced and a considerable amount of discussion, pro and con, followed the reading of each resolution.

After a session in which the wants of the inner man were filled, the meeting got down to business again about 7.30 p. m. and it was four o'clock Saturday morning before the meeting was brought to a close.

The Treasurer's report was

given as follows:

Receipts \$1399.85
Expenditures 1276.35
Balance 123.50

Assets over Liabilities \$300.70

The expenses incurred in the election of G. N. Johnston, M. L. A. amounted to \$671.50.

The officers elected for 1922 were:

President, C. Fawcett, Consort V-Pres. T. Partridge, Monitor Directors, C. Wager, Federal, West Division; C. C. Wilson, Sedalia, Central Division; Jas S. McKay, Consort, East Div. Secy-Treas. E. G. Gardiner, Coronation.

The Misses Maley rendered several musical selections at the evening session.

HOCKEY MATCH

A fast game of hockey was witnessed, Saturday afternoon, on the local ice when Sedalia crossed sticks with Monitor.

With the exception of the second period, when the local boys scored five times, the game was nip and tuck all the way through, Sedalia notching the first goal from a scramble in front of the net. By some fast work Monitor tied the score and scored again in a few minutes. The first period ended 2-1 in Monitor's favor. In the next period the local lads ran wild, bulging the net five times and holding their opponents down without a tally. Score 7-1.

Sedalia made things more interesting in the final period, each team scoring a goal, the final score being Monitor 8, Sedalia 2.

Monitor line-up:

Goal McCulloch
Defense Doug Duncan
Gillam
Centre Scott
Wings Gray, F. McGirr
Subs. Deadmarsh
Referee Larder

The hockey team will play at Coronation on Tuesday night.

A bunch of the local curlers will journey to Coronation on Tuesday and curl for the Blair Cup.

KIRRIEMUIR

Mrs. E. Morris has become a patient at the Red Cross Hospital. A speedy recovery is hoped for.

The new officers of the Kirriemuir U. F. A. were installed last Saturday. Messrs Samson and W. Jackson being respectively President and Secretary.

Everybody had a good time at baby Palmela's 1st birthday. To the wee wee 'ours of the mavin' H. and Mrs. Rice acted as our hosts.

The local G. W. V. A. will hold their monthly meeting on Friday. There will be re-election of officers. Everybody be present.

Services on the Kirriemuir Mission, next Sunday, will be as follows: 11 a. m. Kirriemuir Schoolhouse, 2.30 p. m. at the home of J. and Mrs. Brockleley.

Mrs. Lush has moved into her new domicile.

The Annual School Ratepayers' Meeting was held yesterday afternoon in the schoolhouse.

The weekly Prayer Meeting continues to be a source of inspiration. This week at the home of Mrs. Weece; Jan. 18th Mrs. Azzie; Jan. 25th A. Aiken.

Local Happenings

T. H. Noud is spending a few weeks' visiting at Olds and Calgary.

J. Gray and F. McGirr are spending the week taking in the sights at Edmonton.

J. C. Matheson returned from his vacation on Tuesday.

H. McCarron shipped two ear loads of hogs, to Winnipeg, yesterday. He will be shipping again in a week or so.

Dr Agnew, Dentist, did not arrive in town on Monday, as expected, and it is not known when he will be here.

Ruth Martin is convalescing after her recent sickness.

CARD OF THANKS

The delegates to the convention of the U. F. A. Coronation Constituency Association, held at Monitor on Jan. 6th 1922, desire to express their appreciation of the courteous treatment extended to them during their stay at Monitor by the members of the Board of Trade and other Citizens.

On behalf of the Delegates
E. G. Gardiner Sec.-Treas.

Robt. and Mrs. Ridley wish to express their sincere appreciation for the sympathy and kindly helpfulness shown them in their recent bereavement, by their friends in the district.

Big Deposits Of Sodium Sulphate In Monitor District

A. E. Bennett is in Calgary interviewing capitalists with the object of getting them interested in the big deposits he has leased. It is estimated that there are several million tons of this high grade Natural Mineral Salts embraced in the Leases held by Mr. Bennett and his associates.

Chemical analysis on three samples give returns of better than 99% Sodium Sulphate, which assures the product of the most economical methods of handling, being a straight de-hydration proposition.

NOTICE

The Annual Meeting of the Ratepayers of the Horse Shoe School District, No. 3004, will be held in the Schoolhouse on Saturday January 14th at 2 p. m.

The Annual Meeting of the Ratepayers of the Basin Lake School District, No. 3703, will be held in the Schoolhouse at 2 p. m. on Thursday Jan. 12th.

The Annual Meeting of the Ratepayers of the Stonelaw School District, will be held in the Schoolhouse at 2 p. m. on Saturday Jan. 14th.

The Annual Meeting of the Ratepayers of Monitor School District, No. 3056, will be held on Saturday Jan. 14th at 2 p. m. in the Schoolhouse.

The Annual Meeting of the Ratepayers of the Miner School District, No. 2552, will be held in the Schoolhouse at 2 p. m. on Saturday January 14th.

Canada's Needs

No. 2—Agricultural Prosperity

Concluding the first article in this series in which the greatest need of Canada, in order that it may become the nation nature intended it should be, was declared to be adequate population, the view was expressed that, first and foremost, it should be definitely ascertained why so many people left the country; in a word, why Canada failed to hold the people who immigrated to the Dominion, and even failed to hold its own native born.

The fault should be clearly established, and, in the opinion of the writer, it is not far to seek. It is, we believe, to be found in the fact that, despite Canada's enormous area of fertile agricultural land, the wonderful productivity of its soil, and the virility of its climate and people, the business of farming is not a paying one, with the inevitable consequence that agriculture languishes and thousands of people who engage in it give up after years of struggle, while other thousands go on from year to year without making any material advance and become wholly disheartened.

As long as such a condition continues, and millions of acres of arable land remain unsettled and unproductive, all industry in Canada will suffer, our railways will continue to be operated at a loss or be forced to impose such heavy rates upon the commerce of the country as to constitute another and serious obstacle to settlement, development and the business of the Dominion.

All observant men must admit that there is something radically wrong when the second largest grain crop ever raised in the Prairie Provinces, that is so far as quantity is concerned, proved to be, not a debt-paying crop but a debt-producing crop. The hundreds of millions of bushels of grain grown and harvested in 1921 should have given a great impetus to business in Canada, should have paid off millions of debt contracted in the previous poorer years, and should have started many people on the road to prosperity. But, alas, taken as a whole the crop of 1921 cost the farmers more to produce it than they realized from its sale. And this disheartening experience of the grain grower was duplicated in the case of the livestock producers.

Under conditions such as these it is quite futile, and a waste of time, energy and money to endeavor to secure thousands of new settlers to come to Canada and engage in agricultural production. Conditions confronting and governing agriculture in Canada must first be righted.

There will always be years in which adverse weather conditions occur, years when plagues of grasshoppers, or rust, or some other pest will prevail to a certain extent, but every farmer is prepared for these. These things alone did not bring thousands of Western farmers face to face with disaster and ruin this year. Despite such drawbacks, and notwithstanding the high costs incurred in connection with the raising and harvesting and marketing of the 1921 crop, there would have been a profit had anything like a price comparable with the costs of production been obtainable. But just as soon as the crop began to move the bottom fell out of the market and the grain had to be sold, if sold at all, at a price less than the costs of production and transportation.

That's the situation in a nutshell, and the result is that not only the Western farmers, and the West generally where prosperity depends upon the success of the farmers, but the whole industrial world in Canada is suffering. Business in the East as well as in the West is in the doldrums, is vitally, seriously, affected.

Agriculturists, we repeat, expect to face the vagaries and cope with the vicissitudes of nature, but as individuals they cannot combat such a combination of circumstances as confronted them during 1921 and will confront them again unless Canada wakes up as a nation and grapples with what is our outstanding national problem. A solution must be found, and found speedily, if Canada is to grow and prosper.

Canada can only live and prosper by developing a large and profitable export trade. The chief exports of this Dominion are, and for many years must continue to be, the natural products of its farms, its mines, its forests, and its fisheries. World markets for these products must be found and developed. The fiscal policy of this Dominion should be so framed as to encourage such a development.

A home market for factory products is of no value if the home people have not the money wherewith to purchase the manufactured goods, and the great mass of Canadian consumers cannot have money if the products of Canada's farms do not command a price in excess of the cost of producing grain and livestock.

Thickly populated countries may be self-contained, with an industrial urban population sufficiently large to consume all that the agricultural rural population can raise, and vice versa, but not so in a country like Canada with an enormous undeveloped area of arable land and other natural resources and a sparse population thinly spread out in a line three or four thousand miles long. Canada must produce more from its land than its own people can consume, and a profitable market must be had for the surplus in order that the whole country may prosper.

To Extend Railway

Line North From Cochrane Will Open
Line North From Cochrane Will Open
The Ontario Government is calling

W. N. U. 1468

for tenders to extend the Temiskaming and Northern Ontario Railway from Cochrane 70 miles toward James Bay. The cost is expected to be under \$3,000,000. This railway will open up one of the finest agricultural areas in the north country; also great timber areas and almost unlimited water power. It is estimated that at the Tin Can Portage, where the proposed extension will end, are water powers running to waste which would produce 200,000 horsepower.

Coldest Place in U.S.
Havre, Mont., is said to be the coldest place in the United States. Its winter temperatures are lower than the winter temperatures of Alaska. At Point Barrow, the northernmost point of Alaska, the lowest recorded temperature is 54 degrees below zero, while Havre not infrequently records temperatures below 60 degrees.

Minard's Liniment For Garglet in Cows

Woolen Mill For Victoria

British Syndicate Will Specialize in Wasted Materials

A British syndicate proposes the establishment of a woolen mill in the city of Victoria. The company states that it is their intention to specialize in worsted materials of high quality, and carry through the entire process from cleaning and preparing the raw wool to the production of the finer grades of worsted suitings.

WHEN WOMEN SUFFER

Look for weakness or ill-health. See if there is not a side ache headache, restlessness and the "blues." The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. This soothing medicine is a great friend to womanhood. They are a wonderful relief to constipation, they clear up sick headache, remove waste and poisons from the system. Girls and women can use Dr. Hamilton's Pills with great success. Thousands use no other medicine and rely solely upon Dr. Hamilton's Pills to regulate the system and keep it in smooth running order. 25c all dealers or The Catarthorone Co., Montreal.

"Zyrt" is the last word in the English language, according to the new Oxford dictionary.

THIN, WATERY BLOOD MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown. Because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale. She not only tires out easily but often suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have a beneficial action on the blood. Miss Delima Lafreniere, St. Ambrose, Man., has proved this in her own case, and advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, and had backaches and headaches almost every day. I decided to give Dr. Williams' Pink Pills a trial, and by the time I had used three boxes I felt much better and I continued taking the pills until I felt as well as I ever did. For what they did in my case I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 60 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Counting House Genius

An electrically-driven instrument is now made which motions the gum on envelopes, turns down the flap, seals them up, then stamps them, counts them and turns them out ready for post—all at the rate of one hundred a minute.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is in the blood. The parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

A theatre ticket stamper of Munich is said to have invented the lithograph process in 1790.

FACE WAS FULL OF PIMPLES

For Three Years, Hard and Awfully Sore, Disfigured, Cuticura Heals.

"I had been suffering with a pimply face for three years. My face was full of pimples and they were hard and awfully sore. They festered and dried up, and were scaly, and disfigured my face. They caused me to lose a lot of sleep, and were awfully itchy, making me scratch and irritate my face."

"I used Cuticura Soap and Cuticura Ointment and I used two boxes of Cuticura Ointment when I was healed." (Signed) Clifford Yeomans, East Chesham, N. S.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum. Soap 25c. Ointment 25c. Talcum 10c. Sold throughout the Dominion. Canadian Agents: The Canadian Drug Company, Ltd., Montreal. Cuticura Soap shares without measure.

"YOUR TEETH"

CLEFT PALATE

By RBA. PROCTOR McGEHE, D.D.S., M.D., Editor of "Oral Hygiene"

The roof of the mouth is called the palate. There are two parts to it, the hard bony part surrounded by teeth, which is naturally called the hard palate, and the soft part that is so sensitive, at the back of the mouth, called the soft palate.

Some unfortunate children are born with a separation of the palate lengthwise. In these cases the nose and mouth open into each other.

It is very difficult to feed cleft palate children and if they do grow up, they have a lifetime of suffering and embarrassment. They cannot speak distinctly and have great difficulty with the fluids of the mouth and nose. Usually through the border of the upper lip.

Two methods are used to give relief to these children. One is to perform an operation, or rather a series of operations, to close the roof of the mouth and the opening in the lip.

The other way is to make a plate that will mechanically cover the opening in the palate.

The nature of the deformity makes the wearing of this plate very unpleasant for the patient.

When a child is born with a hare-lip and cleft palate, the first thing to do is to get a cleft palate nursing nipple, because these children are so very hard to feed. Then have the palate closed as early as possible. If these children are successfully operated on before they learn to talk, the voice will be normal. If the cleft is left until the child becomes accustomed to the faulty use of the tongue that is necessary with the open palate, his speech will never be perfect.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Many do know, however, from experience how immeasurable is the relief provided by that preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Leads West in Honey Production

Manitoba's honey production for 1921 amounted to 903,000 pounds, derived from 14,721 colonies of bees. This province now leads all others in Western Canada in the production of honey, followed by British Columbia with 309,072 pounds.

Killed By Blood Poison

Used an old razor for paring his corns. Foolish because 25c buys a bottle of Putnam's Corn Extractor which for fifty years has been removing corns and warts without pain. No failure if you use "Putnam's." Refuse a substitute, 25c everywhere.

Training Canadians to Speak

Value of Teaching the Youth How to Speak in Public

One of the most important projects undertaken in connection with public schools, high schools, universities and by professional instructors, is that of teaching the young Canadians how to speak in public.

Ideas and thoughts only have value in direct proportion to the extent to which they are spread.

The crusades would never have materialized had Peter the Hermit not inspired the Christian world with his fiery eloquence. Without his ability to talk, the capture of the Holy Land would have remained as a magnificent dream in Peter's brain.

People go to church and hear a sermon. If the minister is a trained speaker, his ideas are twice as effective as the ideas of the preacher with a halting tongue.

Upon the clarity of a school teacher's delivery depends the thoroughness with which pupils receive and digest new ideas.

Business men meet together to discuss business problems and new sales methods. The merchant who can clearly put his thoughts and discoveries before his colleagues, elevates business as a whole.

Organs of speech were given man to use. It is man's duty to bring them to as great a state of efficiency as his muscles, his brain or any other part of his body.—Vancouver Sun.

Minard's Liniment For Colds, Etc.

MISS FRANCES NEWMAN, Chicago, Ill.

"Only a medicine of truly wonderful merit could have done what Tanlac did for me and there is nothing half good enough for me to say about it," said Miss Frances Newman, 2639 Hirsch, St. Chicago.

"I don't think anybody ever suffered any more from indigestion than I did and for over a year I was in wretched health. I had smothering spells and my heart palpitated so violently I thought I had heart trouble, but I know now it was all caused from my stomach."

"Since taking Tanlac I feel and look like a different person. I have a splendid appetite and my digestion is just perfect. I sleep eight or nine hours every night and get up in the morning feeling fresh and happy. My friends tell me I'm always smiling now and I certainly ought to be, for I'm enjoying life again."

Tanlac is sold by leading druggists everywhere.

Prefers Horse to Auto Truck

One of the largest department stores in Chicago, is reported to have recently offered for sale nineteen used auto trucks, and the same week placed an order for fifty heavy draft horses.

It Will Relieve a Cold—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it stops the cough because it always all irritation in the throat. Try it and prove it.

The first stockings were bandages wrapped around the feet.

Light penetrates 3,000 feet below the level of the ocean.

The first real stove was constructed by an Englishman in 1821.

STRENGTH AND HEALTH

Red Blood, Vim, Vigor, Vitality Follow This Advice

Niagara Falls, Ont.—"As my parents have used Dr. Pierce's remedies with such wonderful and quick results, I have decided to send a good word to boost the cause of Freedom from illness. I have used the Golden Medical Discovery at times for the past three years. Am a pressman by occupation and the labor is quite fatiguing and injurious to the system. But today business has no drawback for me. Three cheers for Dr. Pierce's Discovery."—William H. Dempsey, Jr., 32 Bridge St.

As soon as you begin to take this "Discovery" you begin to feel its bracing, appealing effect. Buy of your neighborhood drug store in tablets and liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont. for trial pkg. labels and write for free medical advice.

AFTER GRIP

Colds, Fevers or a Roundup Condition, Take This Advice. Pleasantville, N. S.—"Four years ago I was a very sick woman. The doctor said it was pneumonia. It kept me in bed for five weeks and left me so weak that I could hardly get about. A dear friend advised me to try Dr. Pierce's remedies and I did so. After taking a bottle of the Golden Medical Discovery and one of the Favorite Prescription I found I was getting so much stronger that I continued using them, together with Dr. Pierce's Pleasant Pellets, until I fully recovered my strength."—Mrs. Agnes Brunell.

Western Grain Shipments From Pacific Port Reaching Unlooked For Dimensions

After years of controversy, with on the one hand ingrained conviction that Canadian grain would never leave from the Pacific coast, and on the other a sanguine assurance that ultimately this would come to pass, Vancouver is coming into its own as a port of outlet for part of the crop of the prairie provinces. Though the first shipment was made only last year, developments since that time, and the volume of grain in prospect for export from the Pacific, leave no doubt as to the future status of Vancouver as a grain shipping port for the product of the prairies.

The movement of the first big shipment of Canadian wheat to Europe by way of the Pacific was watched with considerable interest, and attention from many quarters was directed to its reception at the English port. There was general apprehension that the grain would suffer passing through the tropical region of the Panama zone, but, when unloaded in England, grain experts stated that grain had never been received there in better condition. Pacific coast exporters breathed easily and saw a wonderful future opened up for the Pacific port in sharing with the east the business of carrying the grain product of the west to Europe. Other shipments followed immediately upon the first, and by the end of the season sixteen thousand tons of grain, mostly wheat, had left Vancouver for Europe via the Panama Canal.

This year shipments from the Pacific coast to Europe began just as soon as the movement of the threshed crops from the prairies got under way and the export business has been busy since that time. Grain dealers at the coast estimate that during the present season, approximately ten times as much grain will pass through Vancouver for Europe as last season. This will amount, according to estimate, to at least 160,000 tons. There will be, it is considered, about forty cargoes.

Another departure in the export of grain this year has been the shipment of sacked wheat from Vancouver to Japan. Hitherto Japan has been contented with the softer grains of the United States, but that the Canadian product is now held in high favor is evidenced in the extensive demand, November consignments to the Orient from the Pacific coast port totalling seven thousand tons.

The success of initial export shipments of Canadian grain from Vancouver to all parts of the world leaves no shadow of doubt as to the great future of this port, lying so convenient to the western granaries, as an outlet for a portion of their annual crop, and the success of shipment through the Panama Canal to Europe is fraught with significance to the Dominion grain export movement. Every year a certain amount of congestion occurs with the enormous product of the prairie provinces flooding the terminal elevators and export shipping points at the same time. The heavy increases in annual production which will probably continue in greater proportion in the future, will tax the eastern ports of outlet to a yet greater extent and the success of Vancouver shipments will considerably augment the importance of the British Columbia port.

A Treasured Tree

Has Borne Oranges Continuously For Eight Years

An orange tree that has borne fruit continuously for eight years is the treasured possession of some horticulturists in Florida.

The tree, which is guarded day and night, shows no signs of ceasing its phenomenal production of fruit.

At first it was thought to be an isolated freak of nature, but it is now the opinion of experts that it represents a new species, and experiments are being carried out with a view to establishing large groves of such trees.

A team of elephants will drag logs averaging as much as 1,500 board feet.

It's almost as easy to worry as it is to tell others not to.

W. N. U. 1492

Holland's Unique Industry

Country Has Market for Seaweed Harvested Every Year

That every year there is a harvest of seaweed is a fact which is not generally known.

This industry is carried on in Holland. The seaweed is mown with scythes, when the tops almost reach the surface of the water. The harvesters, clothed in watertight garments reaching to the shoulders, work when the tide is low.

When this industry began, only one scythe was used at a time, but now several are fixed to a line which the workers draw to and fro in a saw-like manner above the base of the weed. After the weed has been cut it is spread out in order that it may be withered by the sun. When it becomes black it is soaked in water. The fresher the water the blacker the seaweed turns, and the blacker the weed, the higher becomes its value.

After being soaked for a few days, the product is spread out in the fields to dry, and when thoroughly crisp it is made up into bales weighing about one hundred pounds each. It is then ready for the market.

Seaweed has lately been found to produce gelatine of a very high quality.

Big Shipment of Silver Foxes

Valuable Animals Shipped From Prince Edward Island to States

One of the largest shipments of pedigreed silver black foxes to leave Prince Edward Island was shipped recently, and consisted of three hundred animals destined for the United States including points in the State of New York, Colorado, Wisconsin and Washington. These valuable animals were shipped by express, occupying two express cars and were accompanied by a qualified caretaker carrying pedigree certificates, veterinary health certificates, consular invoices and exportation permits. The demand for high grade Prince Edward Island silver foxes for breeding purposes is increasing rapidly from year to year.

Increase in Wheat

Shipped Down Lakes

Movement of All Grains Greater Than in 1920

Movement of freight through the Canadian and United States locks at Sault Ste. Marie in the 1921 navigation season that closed December 31 aggregated 49,258,254 short tons. It was announced by the United States engineer's office. The figures compare with 79,382,496 short tons in 1920.

Movement of wheat down the lakes was 191,715,010 bushels, an increase of 54,255,232 bushels as compared with last year's. Grain other than wheat aggregated 95,694,264 bushels exceeding that of 1920 by 44,064,064 bushels.

Magnificent Donation

By Indian Prince

Sends \$2,000 to Fund for Princess Mary's Wedding Gift

A magnificent donation to a fund which one of the London Journals is raising for a wedding gift to Princess Mary has been cabled from India by the Maharajah Gaekwar of Baroda. The Maharajah's (or is it the Gaekwar's?) gift is the sum of \$2,000. His Highness is one of the most loyal, as well as the richest, of India's ruling princes, and he made magnificent gifts to help the British during the war. The particular wedding gift to which he has contributed is to be devoted to the benefit of two children's hospitals in which the Princess takes a keen interest.

Company Will Open Mine

It is reported that the White Lake Collieries, Limited, which company owns 239 acres of coal lands between Penitence and the town of Oliver, B.C. are to open a mine and start diamond drilling in the near future. The company has retained the services of a well-known mining engineer to supervise the opening of the mine.

In Iceland, codfish are dried and ground into a flour for use in bread.

Great Gulf Stream

Starts in Tropics, Changes Climate and Ends in Ice Fosses

A river 3,000 times as large as the Hudson! It is the Gulf Stream. This great stream starts in a tropic gulf, flows 10,000 miles, changes the climate and topography of many countries and ends in the ice fosses of an Arctic sea, says the Mentor Magazine.

The drift of strange woods and seeds on its surface caused Lief Eriksson, the Norseman, to seek land to the west, and discover America. But it was not recognized as a great current until years after Columbus' time, when a Spanish admiral, astounded by his rapid progress from America, reported to the king of Spain that he had travelled a great ocean highway.

Benjamin Franklin, when Postmaster of the United States, made the first definite chart of it. Ships from England sailing against it took longer to reach America than ships taking a more northerly course, and he wanted to know why.

Cape Hatteras is the stormiest point in the world because of the Gulf Stream. Here the warm water of the tropic current is deflected into the Atlantic and it becomes a river hundreds of miles wide.

The British Isles and the Scandinavian countries are habitable because of it; the agricultural district of Western and Central Europe has the volume and energy of the Gulf Stream and none affects so large a portion of the earth's surface.

Green Feed Makes Eggs

Sprouted Oats Should be Included in Rations For Hens

"Hereafter I have never been able to make any hens shell out the eggs during the fall and winter months," says G. V. Meyers, of Gardendale, Ind. "This season they are more than paying for board and lodgings. Green feed is the secret that produced the desired result and of all the green feeds I have tried, sprouted oats have proved the best."

"Of course, it requires grain and mash feeds to furnish materials for the hens to make the eggs from; but, without succulent green feed, I found, such feeding was practically wasted as regards egg production and the fowls could not do their best. So, if anybody wants to have a good egg yield during the cold months, I would advise them not to omit sprouted oats from the rations. My birds are enjoying better health also as sickness is practically unknown. Sprouted oats furnish a very cheap feed and they contain ingredients very helpful to the hens in the production of eggs."

Clean Seed For Grain

Practice is First Step Toward a Successful Crop

There is no single farm operation so easily and cheaply done which gives larger returns, than the thorough cleaning and grading of all seed sown. Besides cleaning out the weed seeds, the light weight seeds are taken out when the job is properly done, thus preventing the reproduction of the poorer plants. This practice carried on year after year permits the increase of the best and kills out the poorest. Thorough cleaning and grading of all seeds planted is the first step toward a successful crop. There is no time like the present to put the seed in proper shape for planting.

Livestock in Saskatchewan

Value Placed by Provincial Government at Over Two Million

The value of livestock in Saskatchewan is placed by the Provincial Government at over \$2,385,000, and the total number of animals is given as 2,755,180. This includes 948,280 horses and mules; 1,254,968 cattle; 160,918 sheep and 321,000 swine. Incidentally, the government claims that this province is now, and has been for some time, the leading horse breeding province in the Dominion. There has been a decrease in the cattle and swine figures, but the government points to the great field for sheep on the prairies.

Vancouver Port Establishes Record

With 88,000 bushels of wheat shipped out of government elevators, a record has been established for Vancouver port. The government has handled more cars of wheat this season up to date than it handled in the whole 1920-21 season. Practically all the wheat is leaving here by ship.

Some Results Of The Search For Oil In The Mackenzie River District

South African Goods For Germany

Market Opened Up As Result of Trade Negotiations

As a result of the visit of the South African official, Messrs. Menzies and Gansham to Germany, it is expected that substantial markets will be opened up for South African products, especially in mohair and feathers. It is understood that there will be no difficulty in disposing of the whole South African wool clip by the ordinary trade channels.

A considerable proportion is finding its way to Germany where the demand is active.

With a view to facilitating the importation of feathers, Germany has removed the ban thereon subject to production of an importation license by the recognized manufacturers and dealers in feathers.

Following on conversations with Messrs. Menzies and Gansham in Berlin, the Berlin wheat board is getting into direct communication with the farmers and co-operative associations of South Africa. It is anticipated that a considerable market for cereals will arise therefrom. Basotho, another South African official is remaining in Germany to assist in developing the connection.

World Has Not Seen Last War

Premier Massey of New Zealand Warns Empire Against Absolute Unpreparedness

Premier Massey, of New Zealand, in his New Year's message, in emphasizing the importance of peace for assisting the process of reconstruction, declares that results of the greatest importance from the Washington conference are probable, and that if an amicable quadruple arrangement can be maintained it will be the best guarantee of the peace of the world ever known, says a despatch to the London Times from Wellington.

"No nations have more to gain by peace than the young British nations of the Pacific," the Premier's message continues, "but whatever agreement is reached between the present great powers, none of their representatives think the world has seen the last war."

He warns against the empire lapsing into absolute unpreparedness.

The Tomb Of Lord Roberts

Inscription Completed and Unveiled Without Ceremony

The inscription above the tomb of Lord Roberts in the crypt of St. Paul's Cathedral was completed at the end of last week, and was unveiled without ceremony. The design consists of a cross of dark marble set in the wall, with the word "Roberts" cut into its base in letters of gold. Over the grave the British and Indian flags will be draped. A memorial tablet of Lord Roberts is also being prepared, and will be placed on the north side of the Cathedral nearly opposite the Wellington monument.

World's Biggest Wagons

Trucks of Virginia Railway Carry Load of 100 Tons

Some new railway wagons have just been made in the United States on the Virginia Railway.

Empty they weigh 36 tons, and they can carry a load of 100 tons. They are the biggest trucks now used in the world.

Outside these trucks are 45 feet long and nine feet wide. The depth varies from six and a half to nine feet. The Virginia Railway has ordered a thousand of these wagons to be made.

Girl to Cross Niagara on Tight Rope

Blondin's famous feat of walking across Niagara Falls on a tight rope, is to be attempted by an English girl, next June. This girl, seventeen years old, calling herself Miss. Blonora, is giving a tight rope performance at the Crystal Palace circus, London. Her father says the rope over the great falls will be slanting, and that the girl will cross the falls and come back.

The sea cucumber is an animal, not a plant, and is eaten by inhabitants of Eastern Asia.

"The open season of 1921 in the Mackenzie River oil fields has come and gone," writes Mr. F. H. Kitto, exploratory engineer of the Natural Resources Intelligence Branch of the Department of the Interior, who has spent the past two seasons in the Mackenzie district. With the cessation of activities that were pushed with feverish haste during the short summer months of continuous daylight, comes an opportunity to review the progress and development that has been accomplished, and to weigh the situation in the light of additional knowledge gained.

On the whole, in general terms, an atmosphere of disappointment is evident. To the casual observer the field has proved below par and therefore a failure. Such a verdict, however, is to be expected—in fact they cannot be avoided. The tendency to over-estimate and "boom" that was so rampant last winter and spring could not fail to produce a reaction. Whether or not the field will ultimately prove fruitful, the facts that its location is far distant from markets and that systems of transportation will be difficult and expensive to establish, prohibit an immediate return from any capital invested.

The usual army of cheap adventurers that gather on such occasions has been eliminated, and only the seasoned veterans or recruits with sufficient stamina and financial backing remain. The action of the Canadian Government in framing new regulations that will insure the development, and not the "wildcatting" of this resource and in authorizing the Royal Canadian Mounted Police to refuse right of entry to parties without material means of combating the severe elements and living conditions of the district, or of others of questionable intentions, though raising a storm of protest at the time, is proving effective.

It now becomes evident to the thinking man that the returns from this source, if any, will be slow in appearing, and that the work of prospecting and developing will not be spectacular. There is, however, no reason to feel disappointed. There is no more excuse for a reaction now than there was for a boom last spring. The fact is, there never was any justification for jumping at conclusions of enormous returns. Only a beginning has been made and serious prospecting is hardly yet in full swing. The field has by no means been tested, and those in a position to hazard a sane forecast are exceedingly optimistic.

The summer has resulted in emphasizing two main features—the magnitude of the task of developing the oil resources, as already referred to, and the great possibilities, more within the reach of the man of limited capital, of discovering valuable deposits of placer gold, goldbearing quartz and silver, lead, zinc, copper and iron ores. A large number of prospectors, attracted to the district by the publicity resulting from the discovery of oil, and finding themselves unable to participate in its development, have spread to the north, east and west in search of minerals offering quicker returns. Already several promising discoveries have been reported and it is just possible that directly or indirectly the oil stampede may result in the opening up of one of the greatest mining areas of the north. Among these prospectors are found some of the most experienced men of the Klondike and other famous fields.

Champion Stallion Dead

"Paramount Flashwood" Considered Best Belgian Horse on American Continent

The death of the famous stallion, "Paramount Flashwood," owned by George Rupp, of Laramie, Sask., is a loss that will be regretted by horsemen throughout the province and Canada generally. He was a five-year-old, and as a three-year-old, he won the grand championship for the Belgian breed at Waterloo Fair, Iowa, in 1918. He was looked upon as the best Belgian horse on the American continent. He was died by the unbeaten champion "Marengo," who was sold at auction for \$17,500. When three-year-old, \$31,500 was offered for "Flashwood," but his owner would not part with him.

Heals Inflamed Nostrils Stops Catarrhal Discharge Relieves Colds Quickly

You'll be pleasantly surprised at the quick action Catarrhazone has upon Catarrhal conditions in the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and reliable that thousands praise it and use it everyday. No nasty medicine to take—you just breathe in the balsamic vapor of the healing essences of Catarrhazone and feel better at once. Catarrhazone is breathed through the inhaler into every air cell in the lungs, into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhazone will reach it. You can keep free from coughs, colds, bronchitis and the like by using Catarrhazone. Two months' treatment One Dollar, small size 50c. Dealers everywhere, or the Catarrhazone Co., Montreal.

The Homesteaders

(Continued)

The name at the end of the telegram was unknown to either Harris or his son, but Gardiner assured them it was one to confure with in the financial world. Riles' excitement was scarcely less than Allan's. Gardiner choked a flood of questions on his lips with a quick imperative gesture. Even Riles did not know that the telegram had been written a few doors down the street by a stoutish man in a pepper-and-salt suit.

"I'll take a chance," said Harris, at last. "I'll take a chance."

"Chance nothing!" interjected Gardiner, with momentary abruptness. "It was a chance a minute ago; it's a certainty now. It's the clinch of a lifetime."

"Where some paper?" asked Allan. "Let's get a telegram away right off." Gardiner produced a notebook and, at Harris's dictation, drafted a telegram to Bradshaw, directing him to dispose of the farm at once along the lines of the instructions already given him. He was to cash the agreement and wire the proceeds to Harris.

Then followed long anxious days. Fortune seemed to hang on Bradshaw's success in making an immediate sale of the farm. It was a large order, and yet Harris felt confident a buyer would be found. The price asked was not unreasonable, especially when it was remembered that the crop would go to the purchaser, and was now almost ready for the binder. Bradshaw was in constant touch with well-to-do farmers from the South who were on the lookout for land, and his own banking facilities would enable him to forward the cash as soon as a sale was assured without waiting for actual payment by the purchaser. So

Strength

Strength of muscle does not indicate strength of nerves. On this account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Sleeplessness and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes:

"I had been troubled for quite a while with indigestion. At times there would be a twitching of the nerves of my stomach; and I also found it difficult to get a good night's sleep. I am a moulder, and owing to the nature of my work my system became run-down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and can sleep much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it splendid for anyone run-down and needing a tonic."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto

W. N. U. 1402

Harris was confident in the midst of his anxiety. A gentleman's agreement had been made with Gardiner and Riles, that not a word was to be said concerning their investments until it was a completed fact. Gardiner dropped in occasionally to learn if any word had come from Bradshaw, but it was not until the afternoon of the fourth day that the fateful yellow envelope was handed in at the hotel. As it happened, Gardiner and Riles were present at the moment. They slipped into the back room and waited in a fever of expectation for Harris to announce the contents.

Harris and Allan read the message twice before speaking; then Allan repeated it aloud:

"Twenty thousand dollars proceeds of sale goes forward by wire your bank. Correspondence follows. Will explain failure to get price asked."

"Bradshaw,"

Harris was torn between emotions, and his face worked with unthought nervousness as he struggled with them. That Bradshaw should have sold the farm for half the price he had stipulated seemed incredible. It was robbery; if the amount available would enable them to buy the mine, the huge profit assured from that investment would much more than offset the loss on the farm. Gardiner and Riles, too, were visibly downcast when they heard the amount, but Gardiner promptly grappled with the situation.

"It's less than we figured on," he said, "but perhaps we can get through the thing. The thing to do is to get out to the mine at once with this money. It will be sufficient to prove the genuineness of our intentions, and induce him into town. Then Riles can put up some and I can put up some, and that, with the twenty thousand, should hold the deal until Riles can realize on his farm. Within a very short time we can turn the whole thing over to the New Yorkers, and take in the profits."

"Say, Gardiner," said Allan, speaking as one who had been struck by a new and important thought. "Where do you come in on this deal? Is your old gink up in the hills coming through for half?"

"Not a cent," said Gardiner. "Deal for where I come in, well, dealing with old friends like Riles and the Harrises, I considered that a secondary matter. I fancy that when they feel the profits in their pockets they will be disposed to be only fair, but generous, and, of course if I put up part of the money I will expect my share of profit. But I'm not asking for any assurance. I'm just going to leave that to you."

"Well, that's decent, anyway," Harris agreed. "I haven't as much money as I expected, but if we can pull it through it may be all right yet. Of course, you remember that I haven't promised to put up a dollar unless I like the looks of the mine when I see it?" Harris still had qualms of hesitation about entering into a transaction so much out of his beaten path, and he took occasion from time to time to make sure that an avenue of retreat was still open.

"That's the understanding, exactly," Gardiner assured him. "You're the man with the money, and if you don't like it, don't pay."

Harris at once visited the bank, and returned shortly with the information that the amount, less a somewhat startling percentage for transmission and exchange, was already deposited to his credit.

"Then let us lose no more time," said Gardiner, with enthusiasm. "You need a team and rig, and you better pack a couple of blankets and some grub. Make the stableman throw in a couple of saddles; you may have to ride the last part of the trip. Riles and I will make it the whole way on horseback." Gardiner then remembered that it would be necessary for him to go back to the ranch and change horses, but he described in detail the road they should take, and assured them they could not miss it. The main road was the river valley—up, and up—and if they drove hard they would reach that night a spot where an old, deserted cabin stood back in a clump of poplars. It would be a good place to spend the night, and Riles and Gardiner would meet them there, if, indeed, they did not overtake them on the road. Neither Harris nor Allan had any fear of a strange trail; they had been bred to a sense of direction and location all their lives, and were confident they would find no difficulty in reaching the rendezvous.

"Better make your own arrangement about the horses," Gardiner whispered as they left the room. "We can't be too careful to keep our business secret."

As they stood for a moment in the waiting-room it occurred to Allan that some shooting might be found in the mountains. "You haven't got a gun you could lend me, I suppose?" he said to Gardiner.

"What do you want a gun for?" Gardiner demanded brusquely. "Might get a shot at a partridge, or something. No harm in having one along, is there?"

"Oh, no, but I don't expect you'll see anything to justify the trouble. Anyway, I haven't got one."

"There's a shot-gun here," said the hotel clerk, who had overheard the last remarks, "if that would suit you. A Cholly who was taking a short course in poker put it up a few days ago as a stand-off on his last score. There's ten bones against it; if it's worth that to you, take it."

He handed the gun over counter, and Allan examined it with interest. He recognized an English weapon of

DEECHAN'S PILLS Sweeten the Stomach

a value out of all proportion to the price asked.

"I'll take it," he said, and paid down the money. There was a momentary darkening of Gardiner's face which nobody noticed.

The little party then moved out to the street. Gardiner had regained his smooth manner, and gave some final directions about the road.

"Oh, well! find it all right," said Allan, in high spirits, "and we'll beat you to the shanty unless you've some faster nags at home than any I see you driving. So long."

"So long," called Gardiner. "So long, and good luck!"

"So long, an' good luck," repeated Riles. He was trying to play the game, but, as Gardiner often reminded him, he had no imagination. It would have been quite impossible for Riles, on his own initiative, to have thought of wishing the Harrises "good luck" on the journey they were about to commence.

They were interesting types of villains—one, gentlemanly, suave, deep and resourceful; the other, coarse, shallow, slow-witted and brutal. The offence of one against society was wholly intellectual; of the other, almost wholly physical. Gardiner, fully appreciated the difference, and in his heart he felt a contempt and loathing toward Riles which he concealed only as a matter of policy. And he had worked out in his mind a little plan by which Riles, when his usefulness was ended, should be shuffled off without any share in the booty. At present he tolerated him because of necessity. There was work before them for which Riles was peculiarly qualified.

The Harrises went at once to a livery stable, where they arranged for a team and outfit. They then bought some cartridges for the gun, and a small handbag in which to carry the money.

When Harris presented himself at the bank wicket and asked for the full amount up to date, the clerk, a low-faced teller turned a trifle paler still and slipped into the manager's office. A moment later the manager himself appeared before them.

"I at a pretty heavy order on a country bank, Mr. Harris. Of course we could give it to you in exchange, but to pay twenty thousand dollars or thereabouts in bills will drain us to almost our last dollar. Can't you use a marked cheque, or a draft on a Calgary bank?"

"Well, no," Harris said; "I'm afraid we can't."

"A marked cheque is as good as bills," the banker argued, "and much easier to carry, not to speak of being safer," he added, as an afterthought. "Travelling with that amount of money on you is a sort of defiance of natural law, especially with the country full of strangers, as it is at present."

The banker looked from the powerful frame of the farmer to the equally powerful frame of the farmer's

son, and his eye fell on the gun which the latter carried under his arm. "But, I guess," he continued with a laugh, "there isn't much danger on that score."

"Nothin' t' speak of," said Harris. "And while I don't want t' break your bank, I do want t' get that money, and t' get it in bills, or part of it in gold or silver would do. The fact is, I don't mind tellin' you I've a deal on, an' I've undertaken t' put up this money in cash—to-night."

The banker ruminated for a few minutes. Experience had told him that with a certain class of men money in bills was more valuable than money in a cheque or draft. The very bulk of the currency seemed to impress them. He had seen an old timer refuse a twelve-hundred-dollar marked cheque for his property, and yet surrender greedily at the sight of a thousand one-dollar bills piled on a table before him. This was a trait of human nature found in many persons unaccustomed to the handling of

CASTORIA

considerable sums of money, and sharp traders considered it good business to take advantage of it. The banker thought he understood why Harris wanted all the money in bills, although the sum was larger than he had even seen handled in that way before.

A young man emerged from somewhere and locked the front door of the bank.

Text Of Provisions Of Alternative Scheme Advanced By De Valera

Dublin.—Following is the text of the most important provisions of Mr. De Valera's alternative proposal:

Status of Ireland—That the legislative executive and judicial authority of Ireland shall be devoted solely from the people of Ireland.

Terms of Association—That for the purpose of common concern Ireland shall be associated with the states of the British Commonwealth, namely, the Kingdom of Great Britain, the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand and the Union of South Africa.

That when acting as an associate, the rights, status and privileges of Ireland shall in no respect be less than those enjoyed by any other component state of the British Commonwealth; that the matters of common concern shall include defense, peace, war, political treaties and all matters now treated as of common concern among the states of the British Commonwealth and that in these matters there shall be between Ireland and the states of the British Commonwealth such concerted action founded on consultation as the several governments may determine.

That in virtue of this association of Ireland with the states of the British Commonwealth the citizens of Ireland in any of these states shall not be subject to any disabilities which a citizen of one of the component states of the British Commonwealth would not be subject to, and reciprocally for the citizens of these states in Ireland.

That for the purposes of the association Ireland shall recognize His Britannic Majesty as head of the association.

That so far as her resources permit, Ireland shall provide for her own defense by sea, land and air, shall repel by force any attempt by a foreign power to violate the integrity of her soil or territorial waters, or to use them for any purpose hostile to Great Britain and the other associated states.

The document sets forth in detail in somewhat similar terms to the Downing Street treaty the particulars regarding coastal defense, with a list of harbor facilities and an agreement to build no submarines except by the consent of the British Commonwealth of states, makes a convention for the

Settle Shanting Case

New York.—A cable message from Wu Tung Fang, one time Chinese minister to the United States, saying the Peking Government had finally accepted the Japanese terms for the settlement of the Shantung controversy concerning the loans from Tokio, was made public by Dr. Au Soo, Canton Government representative in this country.

regulation of civil communication by air, assume an arbitrated share of the British debt and war pensions, agree to endow no religion, and arrange for the election of a provisional government and for ratification.

An annex names, Berehaven, Queenstown, Belfast and Lough Swilly as harbors remaining in British care, with facilities for the coastal defense by air.

A resolution added to the document expresses willingness to grant the northeast six counties any privileges and safeguards not less substantial than those provided for in the document signed at London on December 6.

Will Pay Quarterly Dividends

Merchants Bank Shareholders Will be Paid February 1

Montreal.—It was officially announced here that the shareholders of the Merchants Bank are to receive a 1½ per cent. dividend on their stock for the current quarter. It will be paid February 1 to shareholders of record January 4. This is about equal to that which shareholders will receive quarterly on their stock when it is exchanged for Bank of Montreal stock on the proposed two-for-one basis.

Decrease In Calgary Accidents
Calgary.—Four persons were killed, 131 were more or less seriously injured and 3,000 automobiles damaged in a total of 1,310 automobile and street accidents reported to the city police during the year 1921. The death rate from accidents was the lowest this year of any year for several years.

ROY G. ASHWIN,
Secretary-Treasurer Saskatchewan Press Association, at present in charge of the office handling the Saskatchewan Farm Loan Debenture campaign. Publisher of the Milestone Mail from July 1, 1915, to August, 1921. Elected to present position May, 1919.

Influx Of Workers Alarms Port Arthur

Announced Opening of Shipyard Draws Many Unemployed

Port William.—As a result of the announcement that the car works at Port William would re-open this month, men from all over the Dominion are coming to the head of the lakes. One man even paid his last cent to come from Vancouver, only to find that there was no work to be obtained as the works have not yet opened and there is ample surplus of labor in the two towns when they commence operations.

Civic officials are becoming alarmed at the prospect of a big influx of unemployed from outside, with the certainty that most of the new comers will become a public charge.

Toronto Has Woman Police Magistrate

New Official Was Decorated By King Edward VII.

Toronto.—Dr. Margaret Patterson has been appointed woman police magistrate for Toronto at a salary of \$3,500 per annum.

The new magistrate was born in South Perth, Ont., and graduated in medicine from Northwestern University, Chicago in 1899. She was decorated by King Edward VII. for distinguished service in organizing the national resources of India against the bubonic plague.

Direct Wireless to Australia

Sent From England Distance of Twelve Thousand Miles

Sydney, New South Wales.—The first direct wireless press message to Australia from England was published December 3 in the Sun. It was sent from the wireless station at Carnarvon, England, a distance of about 12,000 miles.

It was picked almost simultaneously by the powerful wireless stations at Perth, Western Australia, and Melbourne, Victoria, and thence retransmitted to Sydney.

LUMBERMAN'S FRIEND The Original and Only Genuine

YARMOUTH, N.B.

Discuss Important Western Matters At Conference In Winnipeg

Popularity Of Prince

London.—The Prince of Wales, speaking at a dinner in Rangoon, according to a Reuter cable, said that nowhere during his three empire tours had he received a warmer welcome than in Rangoon. The extent to which the Prince has captivated the warm hearted Burmese, has been strikingly demonstrated on every possible occasion. During a garden party at Government House he received one prolonged ovation. Also while motoring to a dance at the gymkhana, along a route ablaze with Chinese lanterns, the Prince was greeted with an unbroken roar of cheering in striking refutation of the popular belief that an Oriental crowd was never demonstrative.

Says Canada Does Not Need Titles

Toronto Paper Is Against Proposed Restoration of Honors

Toronto.—Under the caption "A Frivolous Proposal," a Toronto newspaper says:

"It is reported from Ottawa that French Liberals will make a strong fight for the restoration of knight-hoods and similar honors in Canada. It is strange that such a notion should occupy the minds of public men at a time when so many serious problems demand solution, the tariff, the railways, unemployment and immigration."

"No worthy cause will be advanced by ministering to the vanity of a few socially ambitious men and women."

"The name of Shakespeare or Dickens would not shine any more brightly if it were prefixed by Sir or Lord."

"In England, such titles are the natural growth of the social set and their roots are struck in history and tradition. In Canada, we have neither the tradition nor the social environment. A title out here is as much out of harmony with our surroundings as a coconut tree."

Alberta Exhibits at Seattle
Seattle, Wash.—The Washington State Poultry Association's midwinter show opened here with stock entered from the northwestern states, British Columbia and Alberta. The most distant shipment is that of Charles Bicket's White Wyandottes from Edmonton.

B.C. Seed for Great Britain
New Westminster, B.C.—Fifteen hundred pounds of Douglas fir seed and 1,500 pounds of alaska spruce seed, the first shipment of British Columbia forest seed for the reforestation scheme in Great Britain, has just been made from the government's seed extraction plant here.

Panama Has Record
Panama.—In spite of the world-wide business depression the volume of shipping traffic through the Panama Canal in 1921 set a new record. The tolls for the calendar year were \$10,325,718 approximately \$30,000 more than the previous year, according to the official report.

C.P.R. Shops Re-open
Montreal.—Closed down for a holiday since about the middle of December the Canadian Pacific Railway Angus shops have re-opened here with the usual complement of men. There will be a working week of four days.

To Reduce U.S. Forces
Washington.—A bill proposing to reduce the personnel of the army, commissioned and enlisted included, to 75,000, and of the navy to 50,000, was introduced by Senator King, Democrat, Utah.

No Decision Yet
Ottawa.—It was stated in the highest official circles here that the Liberal Government had not yet discussed the proposal to bury a Canadian unknown soldier in the main entrance of the new parliament buildings.

Winnipeg.—Joint action by Manitoba, Saskatchewan and Alberta, to bring about substantial reductions in freight rates, a reduction in the tariff, transfer of natural resources to control the western provinces and the adoption of similar immigration policies was approved by representatives of the prairie provinces in conference here. Those present at the conference included Premier Norris, of Manitoba; Premier Greenfield, of Alberta; Hon. J. H. Brownlee, Alberta; Hon. C. A. Dunning, Saskatchewan, and members of the Manitoba cabinet. The deliberations of the conference, according to the official statement, were in the nature of an exchange of views on matters of mutual interest to the three provinces and the trend of the discussions had in view the improvement of conditions of these provinces, particularly from an agricultural standpoint.

In view of the fact that the actions advocated will require to be considered and dealt with by each of the legislatures shortly to convene no definite decisions were arrived at pending action by the respective provincial parliaments.

There was general agreement on the main principles of the subjects discussed, the statement continues, more particularly that every effort should be exerted to bring about substantial reductions in the freight rates, a reduction in the tariff and transfer of the natural resources to the western provinces.

The sentiment of the conference favored joint action, and close cooperation on the part of the prairie provinces with respect to these issues, and the conclusions arrived at will be submitted to the respective legislatures for full consideration, the official statement says.

Dominion Lands Reserved

South of Main Line C.P.R. in Saskatchewan and Alberta

Moose Jaw.—All Dominion lands south of the main line of the Canadian Pacific Railway in Saskatchewan and Alberta have been reserved from homestead or soldier grant, entry, sale or grazing lease, pending the settlement of the land settlement policy of the Government. Notification to this effect has been received at the local branch of the Dominion Land Office from the Department of the Interior at Ottawa.

To Join Expedition
Sherbrooke.—Dr. A. W. Wakefield, of Lake Megantic, Que., will be a member of the British Mount Everest expedition. The doctor has received an urgent request by cable to join the expedition and has accepted the invitation.

Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves; nervous headaches, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

**MILBURN'S
HEART AND NERVE PILLS**
Mrs. M. Damgaard, Young's Cove Road, N.B., writes: "I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at night, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price, 50¢ a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Note and Comment

In order assist the boys and girls, in the surrounding districts, and to encourage them to buy and raise live stock, it has been arranged whereby the Banks will loan to any responsible boy or girl, between the ages of ten and eighteen, on their own recommendation, a sum of money up to \$50.

This scheme will no doubt be worked out in conjunction with the School Fair.

For the purpose of stimulating practical interest in the development of the dairying industry on the farm, and the production of bacon type hogs, the provincial department of agriculture will send a demonstration train on a tour over lines of the Canadian Pacific Railway beginning on January 24th and ending about March 1.

This special train will carry a number of dairy cattle, bacon type and fat hogs, and some sheep. Afternoon and evening stops will be made at each point selected; a list of points is now being prepared and will shortly be published.

The purpose of the train is to show in a practical way what advantages may be derived by farmers generally giving more attention to dairy products on the farm, and the production of good bacon-type hogs. For both these products the market is already available, whereas the market for beef and grain is at a low ebb and furnishes no promising outlook for the immediate future.

A Princeton professor says that wealth is a disease. If it is, we must have been vaccinated when very young.

The local Board of Trade is to be congratulated for the successful handling of all the arrangements in connection with the U. F. A. Convention held here last week. Providing the necessary sleeping accommodation was a big problem they had to face but they were equal to the occasion. The U. F. A. officials were well pleased with their reception here.

Headline in city daily "Wife shoots husband because he wouldn't buy her a new cook stove." Yes, but how could she shoot him if she didn't have the range?

Horse Shoes For Luck

are vogue at Weddings and over racing stable doors, but will not help to build up your sales volume.

Business success, or "luck", as jealous rivals call it, is the product of wise planning, a square deal policy of service and ADVERTISING.

ADVERTISING keeps the public informed of your business. Such knowledge breeds confidence and Goodwill. An expenditure in advertising will prove an interest bearing investment.

Get the facts from "The Monitor News."

A WORD TO THE WISE

A list of advertisers from "The News" in your handbag or pocket is the best "Horse Shoe" you can carry for "luck" in buying. An advertisement is an invitation.
